

NGUYEN DUY VIEN

Fresher C/C++ Software Engineer

Quang Tri - Viet Nam 🙎 duyvienbktdh@gmail.com

facebok.com/vien6798 ①

0328.474.411 🕓

EDUCATION

Dec 2020

Sep 2016 + DANANG UNIVERSITY OF TECHNOLOGY

Major: Control and Automation engineering GPA: 3.0/4.0

WORK EXPERIENCE

1

Jan 2021 + HOA PHAT DUNG QUAT STEEL JOINT STOCK COMPANY

May 2021

Automation Engineer

- Monitor, troubleshoot and handle problems related to automatic equipment of the production line.

Jul 2020 + THUA THIEN HUE POWER COMPANY

Dec 2020

Interns

- Designing distribution grid automation system on MicroSCADA and Matlab software.
- Won the Consolation Prize at the Faculty of Electrical Engineering Student Scientific Research Conference 2020

Nov 2019 +

SAVINA POWER COMPANY, DANANG

Feb 2020

A collaborator for the Design Inverter project

- Designing inverter device for solar battery system based on MPPT control algorithm

PROJECTS

Jun 2020 + GRADUATION PROJECT

Dec 2020

Distribution automation system

- Based on the particle swarm optimization algorithm to build a tool to help operators provide the most optimal solution to restore power from HMI after the distribution grid fails.

Mar 2020 + REAL TIME SYSTEMS

May 2020

Line follower robot car

- Using C language to program multi-tasking on PIC microcontroller.

Nov 2019 + INDUSTRIAL COMMUNICATION TECHNOLOGY AND SCADA

Dec 2019

Building SCADA system for Smart vegetable garden project

- Building a temperature and humidity monitoring system for the garden.

May 2019 + MICROPROCESSOR AND MICROCONTROLLER PROJECT

Jun 2019

Measuring distance

- Using PIC 18F microcontroller in combination with ultrasonic sensor to design a device capable of measuring distances.

SOCIAL ACTIVITIES

2016 - 2017 - Council of Quang Tri in Da Nang.

- Voluntary Blood Donation Day.

2017 - 2018 - A member of the communication department of the Career counseling program for high school students in Quang Tri Province.

SUMMARY

I am a cheerful, sociable, and progressive person. Disciplined work, put the interests of this organization ahead.

OBJECTIVE

Short tern:

- During 2 months, I want to settle down in the new work environment as quickly as I can.

Long tern:

- Mastering 5G technology, and absorbing new technologies.
- Achieve lead developer.

SKILLS

English: TOEIC - 555

C/C++ language

AutoCAD tool

PLC language

PCB board design

Teamwork

Presentation skill

Logical thinking and creative

Office

INTERESTS

- Soccer
- Swimming
- Music
- Traveling
